

## Technical Specifications

MODEL	BLUE S		
Model type	V1121	V1124	V1127
Power	21 kW	24 kW	27 kW
Electrical connection	400 V 50/60 Hz 3P + 1PE		
Heating system	Bare Wire Resistance		
Minimum cable section	4 mm <sup>2</sup>	6 mm <sup>2</sup>	
Fuse current	32 A	40 A	
Water connection	G 1/2		
Maximum warm water capacity at 15 °C inlet water	15° C to 45° C ----> 8,0 l/dak 15° C to 60° C ----> 6,0 l/dak		
Operation pressure	0,05 MPa ( 0,5 bar )		
Declared pressure	1 MPa ( 10 bar )		
Specific electrical resistance of used water at 15 °C	≥ 1300 Ωcm		
Net Weight	3,5 kg		
Protection class/type	1 / IP25		

## Warranty

For this device, the warranty conditions issued by our representative office in the country of purchase is valid.
